

Cashmere High School - Student Council Camp

Recently the Council attended their annual one night stay at The Boyle River Outdoor Education Centre.

The camp was an overall success, with wonderful instructors and good weather and was thoroughly enjoyed by everyone. The weekend involved a wide variety of activities all designed to encourage the group to bond together, to inspire different kinds of leadership, effective ways of communicating and working together as a team, and of course, to have a bit of fun. Our stay at the camp consisted of trust activities, problem solving activities, games, discussions, experiencing the high ropes course and nightline and relaxing in the natural hot pools.

At Cashmere High School we are very fortunate to have such an enthusiastic and capable student council. As a result many opportunities have been created for hard working students to be able show good leadership, and motivation to ensure that Cashmere High continues to be a successful community and leading learning facility.
